

Unleash Success

leadership, skills, strategies, action

growing individuals, communities and organisations

coaching - planning - facilitation - leadership

Unleash Success

Unleash Success is aimed at leaders, decision makers, future leaders and people whose roles influence the growth and development of businesses and organisations.

The program can be tailored to suit your specific needs and is offered over seven weeks to ensure that the insights and strategies learned can be tested and incorporated into practice.

We have delivered this program within local government, not-for-profit organisations and businesses and have found that it delivers fantastic results.

Making **life** easier

Unleash Success

Program Goals

Participants will:

- learn the basics of developing a compelling vision and values based practice and culture
- undertake an audit of key performance areas
- expand participants understanding and effectiveness in working with others
- learn about working 'on' versus working 'in' the business or organisation
- develop priority actions
- implement strategies to effect change.

Program Outcomes

- A compelling vision or an understanding of the full significance of the existing vision
- An understanding of a leaders role in effecting change
- New or reinvigorated strategic priorities and business plan
- Defined strategies for leading change
- Pre and Post program evaluation

Program Details

- Minimum of 10 and a maximum of 12 participants
- Cost per participant: \$1,000 + GST
- Travel and accommodation costs are additional if required
- Venue and any catering to be provided by the client

Testimonials

"The experience has taught me to look beyond my comfort zone and start each day with a positive attitude towards both my professional/business and personal life. I feel reinvigorated, positive, motivated and believe my staff and family do as well. My staff is more relaxed, happy and we communicate better and more openly. I feel I am starting to achieve my goals and finding solutions to business and personal situations that may arise throughout my day/life with greater ease and confidence."

Pharmacy Owner

"The program encouraged staff to "show leadership" rather than relying on someone else to 'do it for them'. The program allowed the group to build trust and respect into their relationships as well as an understanding that everyone in the group is different and has many fantastic qualities and skills to share. It also allowed and encouraged self reflection - possibly the most liberating component of the program."
